

Join the European Solar Manufacturing Council

ESMC is established by and for companies and organisations active in the European PV manufacturing sector, both at the European and national levels. Entities falling into any of the below-mentioned categories, with headquarters in Europe or affiliated with European-based groups, can become full members with voting rights. Entities with production, research, or pilot facilities in Europe but headquartered elsewhere may join as associate members. Associate members can participate in all ESMC activities, and receive communications and publications, but lack voting rights at the General Assembly and cannot hold positions on the Board.

Companies and organisations in the following fields are welcome to join:

- Producers of photovoltaic components in the strictest sense (wafers, cells, modules)
- Producers of hybrid components provided that a material with a photovoltaic effect is integrated into them as a main part of the product (products integrated into the frame, into vehicles, etc.)
- Producers of materials or products used in the manufacture of photovoltaic components
- Research centres
- Quality control and testing organisations
- Specialised consultants
- Public or private institutions

ANNUAL ESMC MEMBERSHIP FEES

Both effective voting members and associated non-voting members are required to pay membership fees. The amount of the membership fee is determined by the current ESMC Members during the annual General Assembly. For the period from Q2 2024 to Q1 2025, the fee is:

EFFECTIVE VOTING MEMBERS

- € 2875 per year for small enterprises¹ and research centers
- € 5750 per year for all others

ASSOCIATED NON-VOTING MEMBERS

- € 2300 per year for small enterprises¹ and research centers
- € 4600 per year for all others
